How to use province process maps

Education is mostly provincial. These cards name real process channels — not legal advice. Always verify on ministry / board sites. Full maps: k12watchdog.com/guides-province.html

Quick method (any province)

- Open guides-province.html and filter to your province or territory.
- Use the cards for notice / opt-outs, library challenges, FOI/ATIP, school council / PAC, and trustees.
- Copy toolkit letters; keep a dated evidence file; escalate calmly along published channels.
- Optional: tip Tracker after you have a primary source (notice photo, agenda, policy link).

Ontario (example depth)

- PPM 162 / Human Development & Sexual Health notice and exemption process (board policy + ministry page).
- School council (Reg. 612), PIC, SEAC; trustee contacts via your board; Ontario Ombudsman when process stalls.
- FOI to the board (MFIPPA) — see toolkit FOI checklist; IPC if needed.
- Live regional hub example: Durham (DDSB / DCDSB) at ddsb.k12watchdog.com.

British Columbia (second-province starter)

- Use the B.C. cards for PAC / DPAC channels, district policy on SOGI / library reconsideration, and FOI (FIPPA).
- Confirm speaking rules and public question procedures on your district site.
- Pair with national toolkit letters; adapt names and statutes carefully.

Searchlight Seal

Brand: practical clarity on amber (#f5c518) and black. Share calmly — not confrontational slogans. Print packs live under /print/ on the hub.
